A female Pitbull, previously residing at 8 Abraham Julies street, Diazville, Saldanha

Was confiscated with a warrant by SPCA inspector Chiwawa.

The dog was brought to the animal hospital where it was examined by me and found to be

Severely emaciated and exhibiting a large non reducible hard swelling around the vulva,
which was painful for the animal on manipulation and palpation.

This swelling was due to an inoperable vaginal tumor.

It is my recommendation that the dog be humanely euthanised to spare her further pain
and suffering and due to the very grave prognosis of her condition.
