Dear Ms Nanandi,

With regard to your complaint about sheep with overgrown coats and no access to water. Thank you for your concern regarding the animals.

Kindly note that I did an inspection on 7 December 2022 at :

Relevant Address:

Riebeeck West, Western Cape Province

Dropped pin

<https://maps.app.goo.gl/RKVaj7w4Jw8Xs6Pf8>

I went into the farm and walked between the flock of sheep and they all got up and walked away from me. There were no sheep with overgrown coats and also no injured animals. They were all healthy and running away from me. The sheep were sheared about 2 months ago.

There are 2 sources of water available to the sheep. The 1 is under trees where there is shade and the other 1 is not visible from the road.

There are no welfare concerns on this farm.

Kind regards,

Patrick Chiwawa
