Comments: Assign Inspector Fri 14-Jan-22 Warnings-Issued Patrick Chiwawa
The Gelding is underweight, but I did observe water, food and shelter. The body condition of the rest of the animals I observed is fair and acceptable.
I issued a warning advising the owner to improve body condition and de-worm the horse.
The owner was not at home and Merinay told me that she was Jacque's girlfriend. She accepted the warning.
As I was leaving, Jacque's sister phoned me and told me that the Vet was there and the horse was de-wormed. She also told me that the horse is 30 years old.
I asked her to give me proof from the Vet and she promised to send it.
