I went out and met Mark Truter at the beach. There was two horses that were standing in the water. After a while two other horses came. All four horses body condition is fair and acceptable. I did not observe any thin or underweight horses.

Mr Truter told me that the horses don't spend the whole day at the beach. He told me that there was another four horses that were at the beach and they went back to the stables at 13h00. He told me that the horses that are at the beach won't be there tomorrow as they will be resting. I observed some water buckets at the beach. These horses walk in the water. From my observation there is no welfare concern, but I will re-check. I also checked the saddling and also the hoves and teeth.

Complainant notified telephonically.

Assign Inspector Thu 30-Dec-21 Warnings-Issued Patrick Chiwawa

I first went to the beach and I saw three horses at the beach. I met Marilynne Pharo who is Mark Truter's wife. All the horses at the beach were walking on the beach with no people riding them. Marilynne took me to the stables and I observed a Boerboel and three more horses. The body condition of all the animals I observed is fair and acceptable. Mark Truter came to the stables with the horses that were at the beach. He was so cross with me and wanted to know why I didn't make an appointment. I explained to him that we don't make appointments. I observed water, food and shelter. I explained to Mark that he must apply for a PAPA Licence and I issued him with a 7 day warning to apply for it. Inspector October will re-check.

Assign Inspector Fri 07-Jan-22 Re-Check Jameson October

Mark was not at home. I went to go check at Pelgrimsrust where the horses are standing, but he was not there. I saw +- 8 horses grazing inside the camps.

Water and shelter is also visible. I gave Mark a call to ask him about the application for the P.A.P.A. licence and he told me that he has sent his application in and is now waiting on results.

Will re-check.

Assign Inspector Thu 13-Jan-22 Re-Check Jameson October

Mark gave me a copy of the application he send to the Department of agriculture for the P.A.P.A. license.

Will follow up.
