Comments: Assign Inspector Tue 30-Nov-21 Warnings-Issued Jameson October
 There was no people at home. I saw 1X brown Pitbull female and 1X black Pitbull X standing on the roof of the kennel.
 Both dogs are on short chains without any collars.
 The 2X dogs are also underweight. No water was observed, but I did see food and water bowls so I'm not sure if the water has been knocked over.
 It also looks like the 2X dogs are tied to the same object. I am not sure as I can not enter the property and is only allowed to view the 2X dogs from a street point of view.
 I issued a warning and will do a re-check.

 Owner has extended the chains of the dogs to +-6 meter long and both dogs has collars around their necks.
 Water and food is also observed. The owner contacted me regarding the runners to ask for a little more time, until the weekend, when he is home to install the runners. He also told me that the dogs has been de-wormed.
 I asked the owner to show me the proof on my next visit.
 Will re-check.
