Anna-marie, the owner let me on the property to do an inspection. I observed a lot of bird cages in the house and outside. Most of the cages had 2X birds in it and in some of the cages there was 4X birds.
Cages were clean and fresh water and food was also observed. I only saw 1X bird that had plucked his feathers for making a nest. The other birds are all in good condition. There are five different bird species on the property. Most of them are budgies. No parrots was observed. I have completed a bird checklist and has attached it to the case.
I will do a re-check when in the area.

2022-03-24 13:14 Being Investigated Re-Check
There was no people at home. The housekeeper told me that she could not let me in without the owner's consent.
While there she tried contacting the owner, but the owner's phone went to voicemail.
Will re-check when in the area.
