On my arrival the kids was walking with the dog. There was no grownups at home.
Property not fully enclosed. I asked the boy if I can see where the dog is living.
The boy took me to the back where I observed water, shelter and a short chain.
The boy confirmed that they chain the dog.
Living area is clean. The Pitbull is in acceptable condition.
No sign of external parasites on the dog. I also did not observe any eye infection.

Mrs Allie told me that the Pitbull puppy got Parvo and was put to sleep by Longacres Animal Hospital.
I phoned Long Acres Animal Hospital and they confirmed that the white & brown Pitbull female was put to sleep.
I explained to Mrs Allie that they can't have another dog for 6 months.
I will re-check.
