2022-03-07 14:50 Assign Inspector Warnings-Issued

The dog is on a long runner and I observed a collar, water and a steel drum used as shelter. The body condition of the dog is fair and acceptable. I issued a warning advising Koos to provide adequate shelter and it was signed and accepted by his son Heino. I will re-check in 7 days.

2022-03-14 13:20 Assign Inspector Re-Check

Water, food and shelter observed. The dog was loose and there is no fencing on the property. The dog is very aggressive and I advised Heino to tell his father to keep the dog on a runner as he can bite people. The dog's body condition is fair and acceptable. The owner complied and provided proper dog kennel. I will do another re-check again when in the area.
