Comments: Assign Inspector Mon 14-Feb-22 Warnings-Issued Jameson October
Received a call from Jeffrey about 2X dogs with mange and that the owner refuse to surrender the dogs.
I went out to access the situation. I saw 1X Terrier X female and 1X Pitbull female.
Both dogs have mange. I spoke to the owner about mange and how to treat it.
I told the owner to get dog dip and to dip the dog once a week for 6 weeks to treat the mange.
The owner agreed to buy the dip and to start with the treatment.
Water and shelter is available.
I issued a warning to get treatment for the mange.
Body condition is acceptable.
I will be monitoring the treatment process.
Will follow up.
