There were 2 dogs roaming free, they are in a fair condition. Wilhelmina said that the cow belong t Mr Klaasen so I issued the warning to the wrong person. The cow was on a chain. No water or food available. The cow is very thin. I left a warning on Mr Klaasens name. Will re-check.

Re-check. The cow was still on a chain and did not have food. Wilhemina said the owner of the cow is Anna de Klerk. I left a warning that they need to provide proper food for the cattle and they need to remove the chain immediately. The cattle needs to pick up body condition within 3 weeks time. I gave him some food that I had in my bakkie. I then did see a dog in an enclosed camp. The dog is in a fair condition but the camp was full of dog feces and did not have water. I did leave a warning.
