There was nobody at home. There are 2 dogs tied on chains. I could only see the one dog that was lying outside of his kennel, he is in a fair condition. The other dog did not want to come out of the kennel. I could not see if there was water in the bowls. I left a warning that the owner needs to provide the dogs with proper dog food and there must be clean drinking water at all times. He needs to put the dogs on runners. Will re-check in 7 days.

Mr Daniels phoned me regarding the warning that I left. He said that the male dog keeps on breaking the runner but he will put up a new runner. He also said that he works in Darling and that he goes home to check if the dog has water because he spills the water. I educated him on the kennel that is too hot and he must put the water bowl in a tyre. He said that the female dog is inside the house because she has puppies. Will re-check.
