Comments:

Handler Inspector Stage

2022-02-16 18:00 Assign Inspector Warnings-Issued

Abdul let me on the property. I observed one tan terrier x puppy at the back of the shop. Living area is dirty. Water, food and shelter observed. I saw that the puppies ear is injured. I asked Abdul what happened and he told me that the 2 cats in the shop attacked the puppy over some food. I issued Abdul with a warning to get vet treatment for the ear and to clean the living area of the puppy. Inspectors in Swartland will follow up.

2022-02-17 18:15 Assign Inspector Warnings-Issued

Abdul was not there but his brother let me on the property. Abdul's brother Yusuf told me that Abdul did get some ointment to treat the wound on the dog's ear. I could see that the dogs ear has been cleaned and some ointment was applied.

Living area was also cleaned.

Water food and shelter was observed.

Swartland SPCA will recheck.

2022-03-11 23:00 Assign Inspector Re-Check

Water, food and shelter observed. The dogs body condition is fair and acceptable. The ear is healed. I did not observe the cats as Abdulah told me that they go out. I will re-check again.
