Water, food and shelter observed. The Puppy's body condition is fair and acceptable. Mr Hendrick admitted that two puppies died a long time ago and there is no proof to claim that they died of Parvo or Distemper, but I did insist on him having his puppy vaccinated and he told me that he already booked with the Vet for the vaccination to be done on the 4th of January 2022. He told me that he does have four cats but I only saw one. All the animals observed are in a fair and acceptable body condition. Jameson will re-check.
