When I arrived Mr Lodewyk Lesch was in a meeting and he asked the lady on the till to let me go and do the inspection as there was nobody else to take me through the property. I did not see any sick chickens and all the pigs were lying and I tried to scare them so that I can see their hooves but they are so used to people and are not scared at all. Almost all the water bowls were dirty and I issued a warning which was signed and accepted by Mr Lodewyk Lesch. I will do a re-check.

All the water bowls are now clean. Water, food and shelter observed. The owner complied to the warning I issued. All the animals I observed are in good condition. I will re-check when in the area.

2022-03-29 11:40 Assign Inspector Re-Check
Water, food and shelter observed. The farm stall was closed and will open tomorrow (Wednesday). All the animals I observed from the road are in a good body condition. I will do a proper inspection when the shop is open and when the people are available.
