| Water, food and shelter observed. The Rottweiler is on a short chain of about 2 - 3 metres long. I observed collars on both dogs. The brindle dog is thin and Alec told me that the dog is very old and he might decide to get rid of the dog. The dog is on a long chain of more than 5 metres long. I issued a warning and I will re-check in 7 days. |      |         |           |                 |
| 2022-03-31 15:15                                                                                                                                                                                                                                                                                                                                        |      | Assign  | Inspector | Re-Check        |
| Water, shelter and collars observed. I was supposed to re-check next week but Alec stopped me and advised me that the male terrier x brindle is sick so I must take the dog. He surrendered the dog and the Adm # C9864. Both dogs body condition is fair and acceptable. I will do a re-check when in the area.                                        |      |         |           |                 |
