There is one male dog on the property. He is full of ticks. I could not see any shelter. The dog was roaming free in the yard. The owner was not at home. I left a warning for Lelanie. That she needs to get a tablet at the vet for the ticks and fleas on the dog or dip. Within 72 hours she needs to provide proper shelter for the dog within 7 days. Will re-check.

When I arrived at this property I met a young boy of around 8 - 10 years old and he told me that he was Ethan's younger brother. He told me that he cannot confirm or deny whether Ethan bought the tablets for fleas and ticks but he will rather take me to Ethan's place of work. I went to the fishery in Malmesbury where Ethan works and he told me that he can only buy the tablet on Saturday after getting his salary. I issued another warning and will re-check in 3 days.

Water and shelter observed. The dog is in a fair body condition. The dog is always loose and walking up and down the road. Ethan bought a Bravecto tablet and Mr Barendse told me that his friend gave some dip which they used to wash the dog. I will do another re-check when in the area.
