There are 2 dogs on the property. Both the dogs are on short chains. Their area was dirty where the dogs are tied and they did not have water. 2022-04-05 00:00 Assign Inspector Re-Check

Both dogs are still on runners and I observed water, collars and shelter. They are both in good body condition. Elmo told me that the male dog is very old so he is not going to sterilize him but he will wait for the female dog to have one more litter then he will sterilize her. I will re-check again when in the area.
