There is one female dog that is very thin. The dog is on a runner. Water and shelter available for the dog. The owner said the reason why the dog is so thin is because she just had puppies. I told her that she needs to give the dog more dog food per day. I gave her a warning to provide the dog with proper dog food every day and that the dog needs to pick up body condition. Will re-check.

The dog is on a runner and I observed water, food and a collar and shelter. Aunt Sarah told me that she will only sterilize the dog after the second litter. The dogs body condition and that of the puppy is fair and acceptable. The puppy is loose. I will do another re-check when in the area.
