Denver Syders let me on the property to do an inspection. I asked Denver about the puppies because I could see that the one black pitbull female recently had puppies. Denver told me that all the puppies has died. The female dog is in an acceptable condition for a dog that had puppies recently. At the back of the property I observed a brown terrier x male on a ±6 metres long light weight chain with a collar. Water, food and shelter observed for tboth dogs. I asked Denver if he wants the female to e sterilized and he said he will think about it. Will do a re-check.
