I contacted Mr Mbazo to understand what happened. Mr Mbazo told me that he and his friend went for a walk with their dogs at Greenvillage (which is very far from Vredenburg where they stayed for the weekend) app 15km. He said a farmer stopped by him and asked him what they are doing on his property. According to him the farmer then took out a 9mm gun and shot his dogs. The farmer then loaded the dead dogs onto his vehicle and took it to his house. He says the farmer then came back with a dead sheep and told him that his dogs killed his sheep. He said the farmer then contacted SAPS. Mr Mbazo further claime that when SAPS arrived SAPS wanted to know from him why his is trespassing on the farmers grounds.
