 There was no people at home. I saw 1X brown & white Pitbull female on a +3 meter long chain with a collar.
 I approached the dog and she was very friendly. I could even touch her.
 Shelter and water was observed, but the water bowl was dirty.
 Living area of the dog is also dirty. Observed some old faeces that indicates that the owner does not regularly clean.
 The Pitbull's body condition is not acceptable but can improve. She is not underweight but room for improvement can be adheared to.
 There was no people so I could not ask what they are feeding the dog and what food they give to the dog.
 I issued a warning and will re-check.

 The owner signed a consent form to sterilise the female pitbull named Vassa . I collected Vassa and she was sterilised by the CVC vet.
 Vassa is staying with the SPCA to heal as she was on heat.
