Comments: Assign Inspector Tue 25-Jan-22 Warnings-Issued Jameson October

Ronechia let us on the property where I observed 1 X Terrier X male on a short chain without a collar.

Upon close inspection I observed that the chain is starting to cause injury to the dog's neck. Confronted the owner about the situation and asked her why the dog needs to be tied. Ronechia told me and Inspector Van Zyl that the owner of the farm does not want the dogs on the farm to be loose because she is afraid that the dogs will attach the sheep.

No water was observed and I asked Ronechia to get the dog some water.

I issued a warning to remove the dog from the chain and to get the dog to a Vet because I am worried about the wound on the neck and fear that the chain might have grown into the skin.

Will re-check within 48 hours.

Received Call Tue 25-Jan-22 Warnings-Issued Jameson October

Received a call from a Mrs Pienaar the owner of Kliprug farm. She was extremely rude and told me I am not allowed to put my feet on the farm again and that there was nothing wrong with the animals of her farm workers.

I told Mrs Pienaar that I will come and meet with her to explain the issues that I found but she refused and put the phone down. I tried to phone her again but she did not pick up the phone.

Assign Inspector Fri 28-Jan-22 Removed-with-Warrant Jameson October

Because the farm owner refused me access to the farm I had to obtain a warrant to inspect the animal.

I was successful in obtaining a warrant and proceeded to go to Kliprug farm with SBM Law enforcement officials who was also on the warrant.

On arrival on the farm I once again stopped at the house of the owner Mrs Pienaar but she refused to come out of her house.

I then went to Ronechia's house and the terrier x dog was loose on the property. On closer inspection I observed that the wound has been cleaned and treated.

I educated Ronechia and left the property.

Will keep rechecking.

Being Investigated Thu 24-Mar-22 Re-Check Jameson October

The TerrierX male has been put on a runner with a collar around his neck.

No open wounds was observed around his neck or other parts of his body.

Water and shelter is available and his body condition is acceptable.

Will do a re-check when in the area.
