I called the complainant to tell her her that the person who called me is not the same person she complained about. Werner the person who called me has no idea what I'm talking about and does not have any pets. The complainant told me that she did not see this Christo person dumped the the dog but has heard about it. I told the complainant that I the future she must have more evidence like photo or video evidence otherwise it's very difficult to just go on hear say. Nfa until further notice.
