**Comments:**

Dear Felicity

Just to keep you in the loop. The vet recommended that they change the bird's diet. We do not like birds to be kept

caged but sadly if the cage is not too small they may keep it in a cage. They are busy building a bigger cage for the bird.

When Inspector Fortuin was there yesterday the bird was outside on the stoep in the sun.

Inspector Fortuin will keep monitoring the situation to ensure that the bird heals.

Thank you for caring and reporting this situation to us.
