General Report Comments: I went to this address and there was no people at home. I only saw the two adult dogs on the property. The puppy was not at the property. I proceeded to the complainants house and she told me that she thinks that the wife of the dog owner works at Fidelity Security and she describes the color and number plate of the car which she drives. I found her sitting inside the car and she gave me her husband's phone number. She told me that her husband's name is Jabulani Shibambu and she refused to give me her name as she said that she doesn't want to get involved in this as it is non of her business. Mr Shibambu informed me that he picked the puppy in the streets and decided to give the puppy a better life but decided to give the puppy away as the dog is now a problem. He couldn't tell me who he gave the dog to. I had already issued a warning before getting this information
