General Report Comments: Mr Hanekom was not at the property. Ian granted me access and gave me Mr Hanekom's tel nr 0731867947. Mr Hanekom then arrived on the farm. I did an inspection and there was a downer. I spoke to Mr Hanekom and he told me that the cow had a stone between her hooves which was removed and they are treating the cow with Ecosulf which I saw the container and took a pic. I observed the cow get up and walk. I then went to the milking parlour and it was clean. So part 2 of the warning was adhered to. We moved on to the paddocks. There was a very big storm yesterday in Malmesbury and therefore the ground was wet and muddy. The water troughs were painted with water resistant paint and therefore part 4 of warning was also adhered to. Mr Hanekom also showed me that they have fly traps and also use Agita to spray. The wet bedding was removed and therefore nr 3 of warning was also adhered to. I issued a warning nr W4734 advising that the paddocks must be cleaned and scraped within 48 hours. Will recheck.
