**REPORT**

Access Granted By: FREDERICK TRUTER  
Comment:  
Were Animals Seen on the Property: No

---

**CHECKLISTS**

General Report Comments: I went to Delico Abattoir in Riebeek Kasteel. The animals in question was already offloaded. Mr Truter took me to the camps where the sheep were in. There were no injured sheep and no downers. There were water and food available to all sheep. They also had shelter. Mr Truter provided me with paperwork of the sheep that was transported. The sheep was transported from Anyskop in Moorreesburg to the abattoir in Riebeek. The truck has 3 decks and the maximum capacity is 450 sheep. 150 per deck. On this particular load there were a total of 375 sheep. Refer to paperwork attached. I will go back on 7 December 2022 to do a full abattoir inspection.
