General Report Comments: I saw 1x male pitbull on a long chain +- 3 meter. I asked why they chained the dog they said they make him loose at night during the day they put him on a chain to prevent him not to bite people. I leave and education about the runner and how to put it. I also observe that the was a clean water and shelter and the body condition is acceptable and there was no sign of old feces. Will recheck again to check if they still look well after Roco.
