General Report Comments: The 2x collie x dogs ran off when I arrived. The owner Mrs Rhyn came out and I asked her if they chain the dogs and she told me yes because that's the rule of the Airforce base. Upon inspection I could see that the dogs have been chained. I told the owner that the chains are too short and the dogs should be runners if needed to be chained. No shelter was observed for the dogs, Mrs Rhyn asked me if I can give her 3 weeks to get someone to make her 2 kennels for the dogs. Owner also told me that they can keep the dogs loose but they jump over the wall and causes trouble for the people also living on the base. Water was observed. The 2 collie x dogs is in acceptable condition and the female is sterilized. I issued a warning to provide shelter and to install running chains for both dogs. Will recheck.
