VETERINARY PROBLEMS / HEALTH CO	No

General Report Comments: Most of the animals on the small holdings are roaming freely to graze in the field because I can see that the fields are getting greener and there are some grass and other plantation to feed on. I also noticed that they are busy with water pipes to provide the small farmers with constant water. The animals are in acceptable conditions. I saw +- 150 goats and cattle grazing the fields. Will do a recheck.
