General Report Comments: The owner of the dog was not at home. I spoke to his sister. I asked her why the dog is so thin she said they don't know because they give the dog food and did deworm her but she is not picking up body weight. I asked if she could show me what tipe of food they are giving the dog. She said that the food is up. I left a warning for the owner to provide the dog with proper dog food 2xper day. The dog needs to pick up body weight within 2 weeks time.
