General Report Comments: Isaac Josephs let me on the property where I observed 2x pitbull dogs on 3meter long chains with collars. The male pitbulls body condition is acceptable but the females body condition needs improve the. Isaac told me that the 2x dogs belongs to his grandson and his grandson has lost his job recently but now he is helping his grandson to look after the dogs. Mr Josephs also told me that he is going to talk to his grandson about surrendering the female pitbull because they can't live on his Sassa pension alone and the 2x dogs is getting to much. I issued a warning to install runners and provide adequate dogfood. Will do a recheck.
