General Report Comments: I accompanied Law Enforcement officer Jason Mentoor to a complaint about a dog that's constantly barking according to the complainant. On arrival I saw 1x German Shepherd on the property. While we were waiting for the owner the dog only barked once. Mr Pieters the owner came out and gave us access to his property. The German shepherd female is in acceptable condition. Food, water and adequate shelter is available and she's got plenty of space to run around. Across the street I also noticed 2x terrier x dogs that was also barking. The female German shepherd called Lady is well taken care of and I could not find any welfare concerns. As we walked out I also noticed a lot of cats in that street. I asked Mr Pieters about the cats and he told me that a lady in there street has a lot of cats and that the cats sometimes walk pass his house or jumps on the wall and that also makes Lady to bark sometimes. No further action until further notice.
