|                                 |                           |                                                                   |
|---------------------------------|---------------------------|-------------------------------------------------------------------|
| CONFINEMENT OF ANIMALS          | Caged - adequate space    | The pigs are in two separate Pig stys and it's big enough for all |
| ADEQUATE SPACE AVAILABLE        | Yes                       |                                                                   |
| CLEAN LIVING ENVIRONMENT        | Yes                       |                                                                   |
| WATER AVAILABLE                 | No ***                    |                                                                   |
| ADEQUATE SHELTER AVAILABLE      | Yes, but not adequate *** | The roof is very low and on hot temperatures it is not good for 1 |
| ANIMALS IN GOOD CONDITION       | Yes                       |                                                                   |
| VETERINARY PROBLEMS / HEALTH CO | No                        |                                                                   |

General Report Comments: All the pigs are in a fair body condition. There was no water available and I had to ask one neighbor to help with the water. I went to the small holding with the Law Enforcement. There is ropes,wires and planks lying inside the pig sty. The pig sty is not adequate as there is no proper floor and protruding nails on the planks.

**ACTIONS**

Warning Issued W4274
