General Report Comments: All the animals observed are in a fair and acceptable body condition. the shop does not breed the rodents. If a customer comes to buy a rodent that's when the shop order the rodent from the breeder. The rodents are only there for a day or two. Phillip told me that they sell to a lot of people all over the West Coast and he asked me to come back as the owner was not there and he does not have the new owner's contact number. Phillip's contact number is 0609020571, Inspector October will go back to do a re-check. the glass container was not over crowded as there was only 12 rats and the other container had mice.
