General Report Comments: I saw 3x terrier x dogs on adequate length chains and only 2x of the dogs has collars. The 1x black male and the tan male is very thin but the brown dogs weight is acceptable. I asked the Mrs Coenraad about the condition of the 2x dogs and she told me that Dot has been treating them for a while now. I told Mrs Coenraad that Dot is not a vet and that she must get the 2x underweight dogs to a vet. The dogs are all on chains and they can reach there kennels and water and food bowls. Living Rea was also clean. I issued a warning to get the 2x thin dogs at a vet and to provide the black dog with a collar. Will recheck.
