General Report Comments: Mr Loubser the farm manager took me around on the farm where I observed 60 cattle and over a hundred dorper sheep. The animals are all in good condition and I could not find any sick or injured animals. There are no pigs on the farm. Water, food and shelter is available. I think the complainant are angry about the fence that's being trampled by Mr Peers cattle but that is an issue that they have to sort out among themselves as there is no welfare concerns regarding the animals that I've observed. Nfa until further notice.
