General Report Comments: When I arrived I saw a lady cutting some meat and I asked her about whose meat it was and she said it was hers and she told me that she bought the pig for R2600 and she is from Langa in Cape Town. When I asked Donovan he told me that the meat is for the workers to eat. I then checked on the pig head and saw a bullet hole. All the pigs observed are in a fair and acceptable body condition. Water, food and shelter observed. I asked Donovan if they transport piglets and he denied it. I will do another recheck as Donovan is not reliable and I believe that he was lying to me about the meat which I saw.
