General Report Comments: Re-check I went to the police station in Redelinghuys to ask for assistance to do an inspection with a warrant that I obtained from the magistrate. When we got to the address Mr White opened the door and said we could come in. I gave him the warrant iis wife Nolene was very rude. She gave me a letter that she got from the vet Piketberg animal hospital that said that they were there for advice and the vet advised them that they must change the food as sunflower seeds is not the best diet for the bird. He also stated that it would take a few months to see improvements. I then went to Saartjie and did an inspection. There was food and water available for the bird. A lady called Glenda White came and asked if I could give all the information to her what needs to happen to the bird to improve her living condition. I left a warning for the owner to provide the bird with enrichment in her cage. Will Re-check again
