Dear Mr Hanekom,

Please refer to the attached with regards to serious issues found at your dairy farm on 10 October 2023.

Mr Henning Opperman did not accompany me during the inspection as he said he did not have time to do so and that he was off duty as he was working from 4:00 am this morning.

Please consider this as a very serious matter as this is not the first time that these issues were brought to your attention.

If this is not rectified and controls put in place to make sure that these issues are addressed in the long run then we will have no alternative but to take this matter further.

--

Kind regards,
