PROTECTION:

Animals not only have to be protected from theft but also from negative human influences such as the teasing and chasing of the animals.

Animal supervision

NO interaction between the public

Interaction between the public and animals must be under strict supervision to ensure the animals are not teased, chased, frightened or abused in any manner.

Enclosure supervision

Adequate supervision must be provided to ensure that animals are not exposed, either deliberately or negligently, to harmful products such as cigarettes, litter, broken glass, potentially harmful foodstuffs or uncontrolled feeding programmes.

Birds of prey

In areas where birds of prey may pose a threat, sufficient vegetation, such as trees and shrubs, under which the small stock can hide will minimise the threat and offer protection.

Fractionious animals

Animals must be protected from bullying and aggression from other animals, including those of their own species. Fractionious or aggressive animals must be housed separately or disposed of humanely.

Noise and people

Animals must be protected from unacceptable noise levels such as loud music, high-frequency noises and fireworks. All animals should have an appropriate area in which they can retreat away from direct contact with the public and other animals.

FEED ROOMS
