Comments: I received a call from Tracy. She told me the farm manager was there yesterday and did pick up the JR dog. She said she thinks that he did feed the other dogs but not the sheep and the geese and the Elande. In my opinion the Elande and geese can graze. The sheep were in an acceptable condition. I then contacted the owner of the farm Quinton Brink at tel nr 0832710935 and he told me that the farm manager is going back to the farm today again. The whole situation is a domestic dispute. Tracy was living with the owner of the farm Quinton and they broke up and she had to move out of the main house.
