General Report Comments: Re-check the owner did not adhere to the warning. There was no proper dog food they say that the dog's eat what they eat at night. The male dog still does not have shelter near him that he can access. The female dog is underweight and on a short chain. I left another warning for the owner to provide the dog's with proper dog food and water. He must put a kennel near the male dog. The female dog must be put on a runner. Will Re-check again
