General Report Comments: Re-check the owner did let her children bring the horses home so that I could do an inspection. They do not stay there they walk in the field were there is grazing. She said her sons don't ride the horses but does does not know if any body else might be riding them. Both horses has sores on there backs. She did not have any ointment or treatment for the injury. I educated her and said it is her responsibility to keep the horses safe. I gave her a warning to get ointment and clean the wounds every day. The horses are not allowed to be ridden at all
Will Re-check
