General Report Comments: I saw 1x black terrier x female on a running chain without a collar. The owner John told me that he had to put the dog on the heavy chain again because she broke the lighter chain and collar that he has bought. John went inside and showed me the broken chain and collar that he has bought. John claims that the dog breaks every chain except the one she is on right now. I educated John on a collar and a lighter chain. Inspector Fortuin will follow up.
