General Report Comments: There was no water available for the sheep and Andile informed me that the bakkie which they use to fetch water had a breakdown so the other bakkie was on it's way. I went back to the SPCA kennels and managed to get 100 litres of water which I then took to the small holding. On arrival I met Andile who had already provided water to the sheep . I issued a warning advising the owner to provide portable water to the animals 24 hours per day. I will recheck
