General Report Comments: Didi the lady who found the injured horse met me at her place and took me to the horse who was at the back of her property. I saw 1x Dark Bay Boerperd x mare with a badly injured leg. I asked Didi if she knew who the owner is and she told me according to the kids in the neighborhood the horse belongs to some guy who lives in Pella that's an hours drive from Chatsworth. Didi then wanted to know if we can treat the horse and I told her that the SPCA does not have a vet and that I can't leave the horse in this condition as it will only prolong her suffering. Didi then called a friend from Dassenberg Horse and Dog Rescue in Atlantis to ask if they can help with the horse, and she send them some pics of the injured leg. Didi then came back to me and told me that her friend showed the pics to a friend of hers who is a vet and he also suggested that the horse should be put to sleep. I then decided to invoke Section 5 of Animals Protection Act whereby this animal in question is so severely injured that keeping it alive would be cruel and only prolong the suffering of the animal. Therefore I decided to humanely euthanize the horse to end her suffering. Nfa until further notice.
