General Report Comments: Simon Mathysen let me on the show grounds to do an inspection. I did not observe any off loading of the sheep because they were already there when I got there. I saw 30 merino sheep in acceptable conditions. Water, food and shelter is available. Michael Swarts the state vet was also there and he told me that he is always there when there is a auction. Next to the show grounds there is a abattoir for when they need to do an emergency slaughter. I did not observe any sick or injured animals. Will recheck.
