General Report Comments: I went out to do an inspection at 19 Adam street,Saldanha. According to the complainant there are monkeys,snakes,squirrels tortoises and dogs living in harsh circumstances. Natalie the owner gave me access to the property. I saw 3x bullterrier dogs in good conditions. On the porch I observed 2x Marmoset monkeys and 1x squirrel in an enclosure. Natalie took me inside the house where I saw 2x python snakes and 5 baby tortoises. The animals are all in food conditions. Living spaces are clean,fresh water and food is available. I asked Natalie if they have permits for the wild animals and she told me when they moved from the North West their vet told them that they don't need permits in the Western Cape. I called Donnie from Cape Nature to explain to Natalie what procedures she needs to follow for applying for permits for the wildlife in her possession. Donnie thanked me for making them aware of the situation and will be dealing with the case further.
