General Report Comments: Mr Shibambu was not at home his son showed me where they enclose the dog when they are not at home. It is in a outside toilet there is water and adequate ventilation but the space is to small. The dog is in a good condition water and shelter available for the dog. I left a warning for the owner to keep the dog in a bigger space. The owner contact me later that day and asked if I could not come again because he only comes home late in the afternoon. I then went to there house again on my way home. He said that the dog is only there during the day when there us nobody at home. I explained to him that the space is to small. I advised him to put a gate in front of the building then the dog would have more space. Will Re-check again
